

Dear Juliet

Thank you for your request for info from me in my position as a candidate and possible councillor on Colac Otway Shire.

I will respond fully to your questions in a couple of days. For now I can assure you that I am passionate about the replanting of trees to maintain the beauty of the townships and the stability of the soil around housing. I also will quickly add that I see great opportunity for better planning regarding fire prevention in and around the township.

Regards Andrew Beale
